DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on March 1, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,631,987 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1, 3-13, 21-24 and 36 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented, for example, in independent claim 1, which include the an optical filter for viewing an object having an optically absorptive lens with a spectral transmittance that includes an object contrast spectral window and a background spectral window.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14-17, 34 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims refer to "eyewear" which has no antecedent basis in claim 10. Perhaps claim 14 was intended.
